

2023/2432

10.11.2023

COMMISSION IMPLEMENTING DECISION (EU) 2023/2432

of 26 October 2023

determining, pursuant to Regulation (EU) No 517/2014 of the European Parliament and of the Council on fluorinated greenhouse gases, reference values for the period 1 January 2024 to 31 December 2024 for each producer or importer which has lawfully placed hydrofluorocarbons on the market in the Union from 1 January 2015, as reported under that Regulation

(notified under document C(2023) 7800)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 517/2014 of the European Parliament and the Council of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006 ⁽¹⁾, and in particular Article 16(3) thereof,

Whereas:

- (1) To implement the gradual reduction of the quantities of hydrofluorocarbons that can be placed on the Union market, Regulation (EU) No 517/2014 subjects the placing on the Union market of at least 100 tonnes of CO₂ equivalent of hydrofluorocarbons per year to quantitative limits.
- (2) Considering the ongoing revision of Regulation (EU) No 517/2014 and the potential changes of the rules for the establishment of reference values for the years 2025 and onwards that that revision entails, it is appropriate to only establish reference values for the year 2024.
- (3) A reference value should be determined by the Commission, every three years, for each importer and producer that has lawfully placed on the market hydrofluorocarbons for a relevant reference period as reported under Article 19 of Regulation (EU) No 517/2014. The quantitative limit, for each of these undertakings for the placing on the market of hydrofluorocarbons in 2024 will subsequently be determined and allocated on the basis of their individual reference values in accordance with Annex VI to Regulation (EU) No 517/2014 and may also include additional quantities allocated in accordance with Article 16(4) and Annex VI to that Regulation.
- (4) In accordance with Article 16(3) and Annex V to Regulation (EU) No 517/2014, the reference value for each producer and importer should be calculated on the basis of the annual average of the quantities of hydrofluorocarbons lawfully placed on the market from 1 January 2015 for the years available, as reported under Article 19 of Regulation (EU) No 517/2014, while excluding quantities of hydrofluorocarbons for the usage referred to in Article 15(2) of that Regulation during the same period, on the basis of available data.
- (5) The annual average of the quantities lawfully placed on the market by an importer or producer should be calculated on the basis of the formula laid down in parameter 4M of the Annex to Commission Implementing Regulation (EU) No 1191/2014 ⁽²⁾ and adding any authorisations to use quota carried out in accordance with Article 18(2) of Regulation (EU) No 517/2014 by that same importer or producer in the calendar year concerned.

⁽¹⁾ OJ L 150, 20.5.2014, p. 195.

⁽²⁾ Commission Implementing Regulation (EU) No 1191/2014 of 30 October 2014 determining the format and means for submitting the report referred to in Article 19 of Regulation (EU) No 517/2014 of the European Parliament and of the Council on fluorinated greenhouse gases (OJ L 318, 5.11.2014, p. 5).

- (6) For determining the reference values for the period 1 January 2024 to 31 December 2024, any data reported by producers and importers in accordance with Article 19 of Regulation (EU) No 517/2014 for 2015, 2016, 2017, 2018, 2019, 2020, 2021 and 2022 should be taken into account.
- (7) For determining the reference values for the period 1 January 2024 to 31 December 2024, only the period starting with the year for which quota had been allocated for the first time in accordance with Article 16(5) of Regulation (EU) No 517/2014, or only the period starting with the year in which the undertaking lawfully placed hydrofluorocarbons on the market for the first time as reported under Article 19 of that Regulation, whichever event occurred first, should be taken into account. This rule should not apply if an undertaking has been placing hydrofluorocarbons on the market on the basis of quota, which includes quota transferred to that undertaking in accordance with Article 18(1) of Regulation (EU) No 517/2014, and the sum of quota transferred in all years starting with 2015 is equal or above the 100 tonnes of CO₂ equivalent limit set out in Article 15(2) of that Regulation. In this latter case, the period starting from 2015 should be taken into account, since the transferred quota was originally carried out on the basis of placing on the market in earlier years.
- (8) Following the findings in the General Court judgement of 22 March 2023 in the case *Tazzetti v Commission* (Joined Cases T-825/19, T-826/19) Article 7(1) of Commission Implementing Regulation (EU) 2019/661^(?) is not being applied in the present Implementing Decision. Therefore, reference values have been determined for all concerned importers and producers without taking into consideration their beneficial owners.
- (9) The measures provided for in this Decision are in accordance with the opinion of the Committee established by Article 24 of Regulation (EU) No 517/2014,

HAS ADOPTED THIS DECISION:

Article 1

Reference values

For the purpose of the quota allocation, the reference values for each importer and producer shall be those set out in the Annex.

Article 2

Period of validity

This Decision shall apply from 1 January 2024 and shall expire on 31 December 2024.

Article 3
